ACMROCH

ASEAN-CHINA MINISTERIAL ROUNDTABLE ON CONSTRUCTION AND HOUSING 2024

3 - 5 JULY 2024

ASEAN – CHINA MINISTERIAL ROUNDTABLE ON CONSTRUCTION AND HOUSING 2024

Malaysia is proud to host the ASEAN-China Ministerial Roundtable on Construction and Housing (ACMROCH) 2024, a prestigious event that brings together Ministers from ASEAN Member States and the People's Republic of China. Last year, the Roundtable took place in Nanning, China.

In conjunction with the 50th anniversary of diplomatic relations between Malaysia and China, this Roundtable aims to deepen and strengthen the Belt and Road Initiative (BRI) and ASEAN-China cooperation in housing and urban-rural development. It also seeks to enhance comprehensive strategic partnerships and build a closer ASEAN-China community with a shared future.

We recognise the immense potential of this exhibition for the housing and construction industry. Therefore, ACMROCH, together with ARCHIDEX, will lead to further collaboration opportunities with ASEAN countries and China.

ACMROCH is hosted by The Ministry of Housing & Local Government, Malaysia and is held concurrently with ARCHIDEX.

Forewords

YB TUAN NGA KOR MING

Minister of Housing & Local Government

ARCHIDEX offers a comprehensive platform for networking, professional growth and staying at the forefront of industry innovations.

By providing a comprehensive platform for sourcing advanced technologies and solutions, ARCHIDEX will support the government's vision of leveraging next generation technology for a sustainable and resilient built environment.

ADJUNCT PROF. AR. ADRIANTA BIN AZIZ

President of Pertubuhan Akitek Malaysia (PAM)

Architects are the visionaries who shape the skylines, spaces, and the communities we serve. As PAM starts its new era, we stand poised to revolutionise the building industry with advanced technology, towards a sustainable and vibrant architectural landscape for Malaysia and the ASEAN region.

ARCHIDEX and the concurrent PAM's DATUM Conferences, will return as an integral event of the Kuala Lumpur Architecture Festival, steering the region towards growth with conferences, forums, talks, and regional association meetings. This is our time to unite and shape the future of the architectural industry in Malaysia, ASEAN, and beyond.

DATO' VINCENT LIM

President of C.I.S

ARCHIDEX is your gateway to forging trade and business opportunities, stimulating economic growth and shaping the future of architecture. With 10 halls across 26,000sqm, we will host 700 exhibitors from 13 countries and regions and expect 40,000 visitors from over 100 countries.

This year, in collaboration with the Ministry of Housing and Local Government, the concurrent ASEAN-China Ministerial Roundtable on Housing and Construction (ACMROCH) 2024, we will also welcome the Ministers from the ASEAN member states and China to visit ARCHIDEX. This makes ARCHIDEX the largest platform for building professionals to meet, exchange knowledge and source for new products, materials and technological advancements.

With local and international speakers at one of the region's largest DATUM Conferences, talks and forums, along with Curated booths and Star Awards that features new and advanced materials, we welcome everyone to make the most of their time at ARCHIDEX and be inspired to build a brighter, sustainable future for the architecture and built environment.

Reasons You Can't Miss ARCHIDEX 2024

It's where innovation, knowledge, and industry excellence converge to redefine the world of architecture and design.

1

EXPERIENCE THE LARGEST ARCHIDEX YET

The premier architecture and construction event, expected to welcome 40,000 visitors from over 100 countries and 700 exhibitors in 10 halls, from 13 countries and regions.

2

KNOWLEDGE SHARING: DATUM, FORUMS, TALKS, AND ACYA

Engage in thought-provoking sessions at DATUM, participate in dynamic forums and talks with 50+ speakers from across the region, and connect with the region's 10 emerging young talents.

3

STAR AWARDS GALLERY: CELEBRATING EXCELLENCE IN DESIGN

Explore the pinnacle of innovation at the Star Awards Gallery, featuring new and sustainable products.

4

PRODUCT LAUNCHES: WITNESS THE FUTURE UNVEILED

Engage directly with industry leaders as they unveil their latest creations.

CELEBRATION OF ARCHITECTURAL ADVANCEMENT: A FESTIVE CONVERGENCE

Celebrate the architectural industry's progress and innovation. Join a vibrant community of professionals as we spotlight the technologies that will define tomorrow's architecture.

5

REGISTER, VISIT & WIN*

REGISTER for ARCHIDEX and stand a chance to WIN Medklinn Asens+40i Air+Surface Sterilizers!

Scan the QR and be a part of the hottest event of the year!

HUA TSAI PAINTS CO., LTD.

Booth No.: 2L180 Hall: 2

Build Stronger and Lighter with Plant-powered Building Materials

Hua Tsai Paints is leading the sustainable building revolution with a plant-powered punch! Its green-certified waterproofing solution, Medusa, built on the patented 'i-WaterProof' additive integrates effortlessly into various construction material to create lighter and more durable buildings, while cutting time and labour costs by half. And that's not all! Their "I-recycled Coating" uses 25% agricultural waste and recycled materials from semiconductor resources and building materials waste to create an abrasion-resistant wonder paint. There's just NO excuse to NOT build green anymore!

EVERLIGHT CHEMICAL INDUSTRIAL CORP

Booth No.: 2L180 Hall: 2

Shield your Coatings Sustainably with the Eversorb® AQ Series

Get protection from UV-induced yellowing, gloss-loss, and discoloration while scaling up durability and weather resistance with Eversorb® AQ Series - Light Stabilizer for Waterborne Coating. This ground-breaking technology by Everlight Chemical, a renowned producer of specialty chemicals, has nearly 90% effective ingredient content, requiring minimal usage for outstanding protection. Plus, its water-free formula eliminates freezing issues, and can be added at any manufacturing stage for seamless integration. Its flexible application process saves you time and money, while reducing environmental impact. For further information visit everlight-uva.com/products/eversorb/performance/eversorb-aq-series.

E INK HOLDINGS INC.

Booth No.: 2L180 Hall: 2

Watch Walls Come Alive with E Ink Prism's Colour Changing Technology

Forget static walls and boring displays – E Ink Prism's colour-changing ePaper is blowing the doors wide open on design possibilities. Its revolutionary colour changing electronic ink technology lets designers and manufacturers incorporate a film that transforms surfaces to create spaces that react to moods, or dance with changing colours and patterns. Beyond aesthetics - E Ink Prism's low-power consumption is a game-changer for sustainability. The future is here, and it's dynamic, get E Ink Prism and push the boundaries of design and imagination.

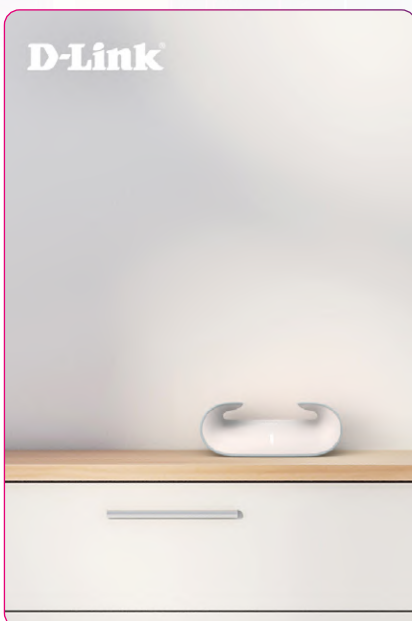

D-LINK

Booth No.: 2L180 Hall: 2

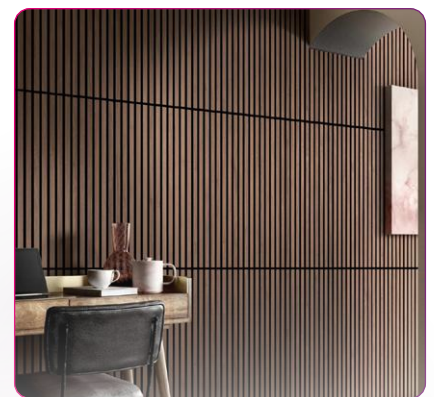

Get Unparalleled Connectivity and Security with D-Link's AI-Powered Home Networking

Say goodbye to buffering and call drops, redefine your smart home networking with D-Link's AX3000 Wi-Fi 6 Smart Mesh Router series in two models – M30, with five-antenna configuration, and M60 with eight antenna design. Both models blast a powerful 360° signal throughout your entire home, eliminating those dreaded dead zones. Built on an advanced AI algorithm with cutting-edge encryption, it keeps your data safe while optimising connectivity for every device on your network. Plus, it's built with the environment in mind, using recycled materials.

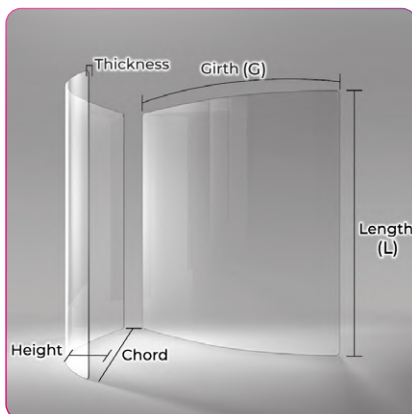

Shh...Hear Nothing? That Means You've Heard of Shimlen's Acoustic Panels

Ditch the bulky soundproofing solutions of the past for Shimlen's SIRIM-approved acoustic panels that are as sleek and glamorous as they are functional. Imagine felt that absorbs sound waves, slats that diffuse and break sound, and a woodgrain texture that exudes elegance. These panels don't just enhance acoustics; they transform aesthetics. Easily bendable for creative designs around soft corners and simple installation without drilling make them incredibly convenient. Whether it's for home, office, or any environment, these versatile panels are the stylish, multifunctional solution you've been searching for.

Step into the Future of Architecture with Curved Tempered Glass

Curved tempered glass, also known as "bent glass," is taking the design world by storm, lending a natural, organic feel to buildings that sets them miles apart from the boxy structures of the past. It also offers durability and stability, making it perfect for everything from glass walls and partitions to stunning building exteriors. From laminated glass, digital printing, frosted to patterned glass, the options are endless! Curved tempered glass is the future of architecture, and with a wide range of sizes, thicknesses, and colours to choose from, you'll elevate your next build to iconic status!

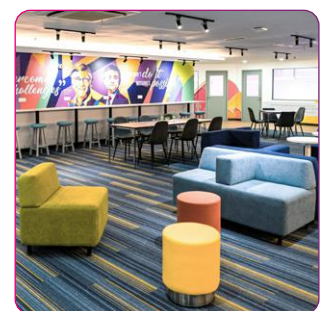

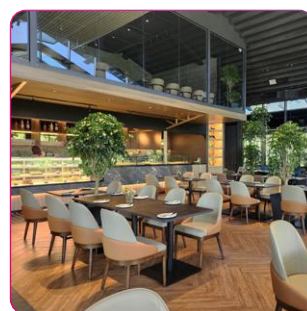

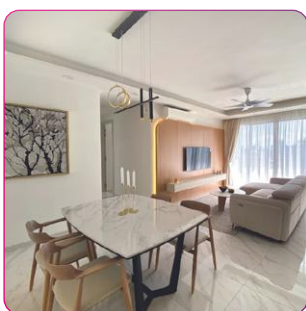

Ride the Future with Wiitrac Elevator's Stylish and Efficient Solutions

Be whisked away through any building or even in your home with Wiitrac Elevator's unbeatable range of elevators and accessibility solutions tailored for residential, commercial, industrial, and public infrastructure projects. Their stylish and efficient commercial elevators guarantee smooth rides in any building, while space-saving, elegant, home lifts bring convenience and accessibility to your home. Wiitrac is laser-focused on sustainability and safety, and their top-tier maintenance and modernisation services ensures your elevator systems are always tip-top. Make Wiitrac Elevator your ultimate partner in vertical mobility.

Transform your Space with KIAN's Tailored Furniture Solutions

KIAN has launched specialised sub-brands to cater to your specific space, transitioning to focus on addressing each segment's unique needs with precision and innovation. BAREKA offers all-in-one project management solutions, a go-to for Bars, Restaurants, Cafés, and Quick-Service Restaurants (QSRs), WORK ANYWHERE revolutionises office environments with ergonomic furniture and smart workspace solutions, enhancing productivity and comfort, while, HAVEN+ delivers cutting-edge and superior furniture solutions to the hospitality industry. POET transforms private residences with stylish, functional, and high-quality furniture designed to elevate living spaces with comfort and elegance.

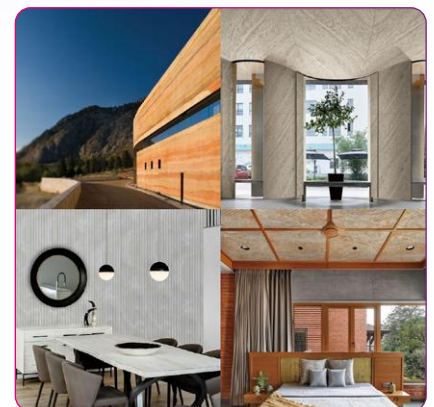

Endless Configurations, Ultimate Flexibility: The Power of Benitem's Modular Chairs

The future of workspace design is all about customisation! Benithem empowers you with FortyFour, endless possibilities of a modular sofa system. With interchangeable components—seats, backs, and arms—it lets you create countless configurations tailored to your needs. Create a workspace that inspires productivity and reflects your unique style with their hot new design, Lavie chair. A masterclass in ergonomic design, it gives you the freedom of choice with multiple configurations using just one seat body, talk about reducing waste and carbon emission!!!

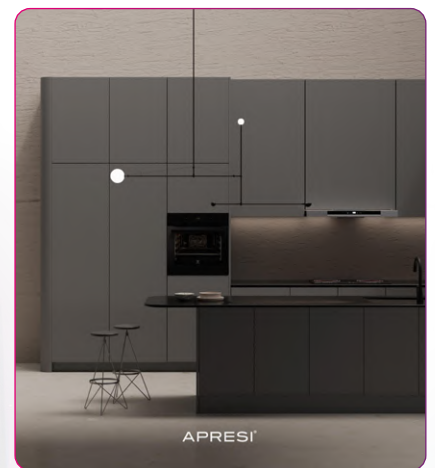

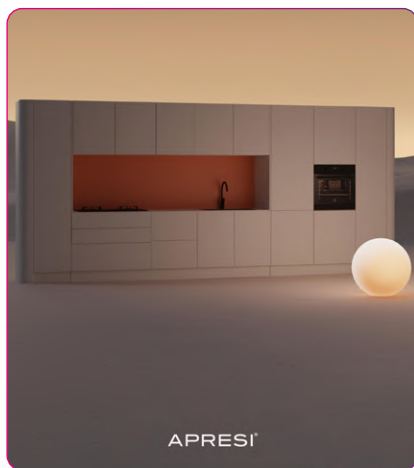

Phomi Econiclay: The Future of Sustainable Design Moulded to Your Dreams

Imagine a material so versatile it can be used for anything from walls and floors to ceilings and even curved surfaces. With its thin, lightweight properties and captivating earthy tones, the future of sustainable design is here and its Phomi Econiclay! This innovative material is crafted with minimal environmental impact, making it the perfect choice for eco-conscious architects and designers. See the possibilities yourself because AGROW brings incredible installations featuring Phomi Econiclay at ARCHIDEX, redefining what's possible in spatial design.

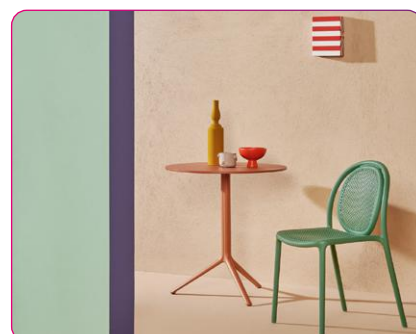

Beyond the Basic Kitchen, AEROFLEX Offers Easy-Clean Surfaces & Unbeatable Durability

Time to ditch the dated kitchen and get on board AEROFLEX's innovative hexagonal-layered aluminium core with smooth surfaces and exceptional durability. Design kitchens people have only dreamt of with a stunning range of 11 Morandi colours, including woodgrain and even fabric-like finishes. Its standout feature? Elegant curved corners, enhancing safety and sophistication—something traditional aluminium kitchens can't offer. AEROFLEX isn't just about aesthetics; it's about transforming a culinary space into a lightweight, durable masterpiece.

From Chic Lobbies to Trendy Cafes, Mozaic Gourmet has Endless Options for Every Hospitality Need

Crafted with premium materials and a sustainability focus, Mozaic Gourmet brings a versatile range of loose furniture specifically designed to elevate any hospitality space. From chairs and tables to withstand high-traffic environments, to modern chic for upscale hotels and cozy cafes, they empower architects and designers to create unique, eco-friendly spaces that promote comfort and wellbeing, making a positive impact on people's lives and the planet.

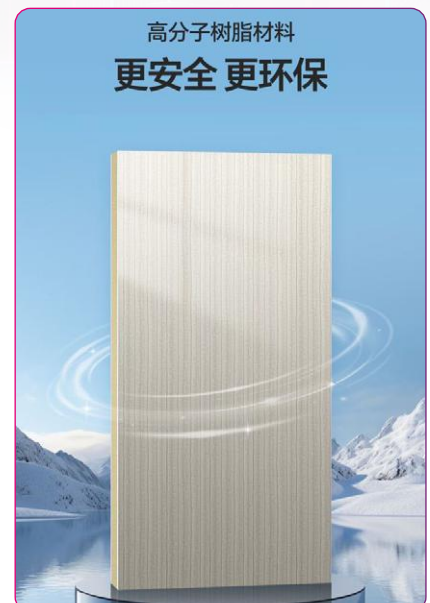

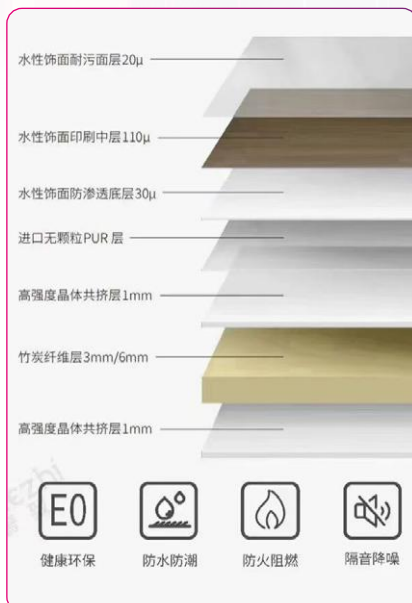

EK ECOLINE Brings the Future of Roofing Technology

Be a step ahead of your competition with EK ECOLINE Single Layer UPVC Roofing System, that's strong yet incredibly lightweight offering faster installation, lower costs, and more design flexibility for your project. Plus, it offers noise reduction options and a leak-proof promise. Key features include Advanced Solar Reflective Technology, Ultra-Lightweight Construction, Seamless and Watertight Design, Weather Resistance, and Eco-Friendly Materials. With certifications from ISO, BOMBA, Malaysia GBC, ASTM, SIRIM, and compliance with BS standards, EK ECOLINE ensures quality, safety, and continuous improvement.

Quiet, Cool and Natural – Bamboo Wallboards Are the New Must-Have

The future of eco-friendly walls is here, and it's made from bamboo! Get hold of invisible joints that create a seamless look for cooler, quieter space. Thanks to exceptional heat preservation, you can design rooms that are 6 degrees cooler while its 24db sound insulation, makes it quieter too. Bamboo is a dream material for the eco-conscious builder and it installs quickly with minimal dust residue. Premier Chanel's ISO 9001:2015 certified bamboo wallboards are formaldehyde-free, grows quickly, and requires minimal processing, making it a win for the planet.

Transforming the Built Environment with IJM IBS's SMART IBS Technology

With IJM IBS, you can design with freedom and get precision in manufacturing, reducing on-site work, cutting down on materials and labour. Featuring robotic-assisted manufacturing and a cloud-based BIM platform, this product offers customisation and lets you view your design before a single piece is cast, minimising errors and saving costs. Through the SMART IBS system, waste is minimised and recycled materials, prioritised. Plus, it supports architects, engineers, and builders working together seamlessly. It's the future of architecture and building - sustainable, efficient, and innovative.

ARCHIDEX[®]
PODCAST 

5 JULY (FRI) | 3:00PM - 4:30PM
EXSTO | BOOTH 8D048, HALL 8

THE BAWANG

ALL THINGS ARCHITECTURE

Ar. FIRA

Ar. QHAWA

Ar. SYARAWI

Inspired by the Malay word 'membawang' ['chui sui'], meaning casual chit chat, The Bawang seeks to transform surface-level chatter into meaningful conversations. Join three architect friends and invited guests as they share perspectives to cultivate positive, deep-seated conversations to promote industry growth.
